ABOUT ME

I am an active student passionate about front-end development, specializing in React.js, Next.js, and Tailwind CSS to create responsive and user-friendly interfaces. With strong skills in API data retrieval, I enjoy building applications that provide dynamic, real-time data to users. I want to gain more hands-on experience in this field and look for opportunities that align with my technical and soft skills, especially in front-end development. My goal is to work in an environment where I can continuously learn, contribute effectively, and grow as a developer.

EXPERIENCE

UPWORK
Frontend Developer   Apr 2023 – Jun 2023
- Build responsive websites using HTML, CSS and JavaScript based on client requirements.
- Developed a blog feature (Static Site Rendering) to improve web SEO and performance (Nextjs, Redux, Tailwind)
- Collaborate with various clients on Upwork and Fiverr to develop websites.
- Develop features on the website and web performance (Nextjs, Redux, Tailwind).
- Implement front-end best practices and patterns and present them to clients.
- Configure reporting and monitoring system for front end to monitor and improve website quality.
- Create and prepare linters and formatters for existing frontend codebases to improve code consistency.

Binar Academy
Frontend Developer   Aug 2023 – Jan 2024
- Introduction to seniors and mentors at Binar Academy
- Learn HTML CSS and directly implement it with slicing from Figma
- Learn javascript logic and algorithms as well as javascript frameworks such as ReactJS and NextJS
- Created a Crud project using reactjs and bootstrap 5
- Created a project fetching TMDB Movie using ReactJS and Bootstrap 5 by adding register login authentication as well as the Redux toolkit
- Create a chat app project using ReactJS websocket
- Collaborate with other frontend and backend teams to create the final project, namely a course app with jobdesk slicing and fetching APIs from the backend

PT Exempli Gratia
Frontend Developer   Jul 2024 – Sep 2024
- Learning activities in the office regarding time management for project work and introduction to several staff
- Learn some tech stacks for projects like React JS NextJS and Bootstrap 5
- Change the appearance of the Turnedin website with more attractive styling using bootstrap 5
- Developing and adding features to PT Exempli Gratia's Turnedin website
- Create a website that is responsive on all devices
- Fetching API data from the backend to update existing data on the website

EDUCATION

UNIVERSITAS SILIWANGI   Tasikmalaya, ID
Bachelor of Computer Science   Aug 2025
Cumulative GPA: 3.62/4.0;
Relevant Coursework: Algorithms; Data Structures; Clean Code and Design Pattern;
Object-Oriented Programming; Database;

Certificate

Binar Academy - Certificate   Des 2023

- This certificate is my achievement following the MSIB Batch 5 independent study at Binar Academy for 6 months

TOEFL ITP - [Certificate](#)   May 2025
- This certificate is the result of an English proficiency test conducted at the university

PROJECTS

Diaz Girgani - [Portfolio Website](#)   Sep 2025
- I designed and developed a personal portfolio website to showcase my skills, creativity and experience as a web developer. This website is responsive, user-friendly and visually appealing. This website features a modern and simple design and. The portfolio website also includes a contact form for potential clients or employers to contact me.
- This portfolio is the first time I made it by learning the framework from NextJS, and TailwindCSS

Project PT Exempli Gratia - [Turnedin](#)   Aug 2024
- I developed a website from PT Exempli Gratia whose previous appearance seemed old and less attractive with the addition of new features and components.
- This project uses the React JS framework and Bootstrap 5

Project Independent Study - [Course](#)   Nov 2023
- It's an achievement for me to create this web course with the collaboration of the frontend and backend teams from the Independent Study Binar Academy.
- This project uses the React JS framework and Bootstrap 5

Project Web Ecommerce - [GuitarVaultStore](#)   Aug 2025
- I created this website just to try fetching the TMDB data API like other people, but I added my own style and appearance.
- This project uses the React JS framework and Bootstrap 5

Mobile App Project - [MovielistApp](#)   Jun 2025
- Developed a mobile application as a personal project using React Native (Expo) and CSS Native styling.
- Focused on implementing mobile interface features and responsive design.

Mobile App Project – [News-App](#)   Sep 2025
- Developed a mobile application as a personal project using React Native (Expo) and CSS Native styling.
- Focused on implementing mobile interface features and responsive design.

Mobile App Project - [WeatherApp](#)   Sep 2025
- Developed a mobile application as a personal project using React Native (Expo) and CSS Native styling.
- Focused on implementing mobile interface features and responsive design.

TECHNICAL SKILLS

Languages: Advanced in TypeScript, JavaScript, HTML, CSS, and PHP.
Frameworks: React (SPA / SSR / Static), Nextjs, Laravel, Express, Tailwind, Bootstrap.
Databases: MySQL, MongoDB, PostgreSQL.
Development Tools: Visual Studio Code, Git, npm.
Design Tools: Figma, Adobe Illustrator, Adobe Photoshop.
